SANDS' SARSAPATILLA .- Investigation and experiment have demonstrated that upon the condition of the blood, depends the health of the body. Consequently, when disease in the shape of Scrofula, Erysipelas, Ulcers, Cotaneous Eruptions, Liver Complaint, &c., appear, it is evident that the secretive functions have become inert, and impurities have been engendered in the blood which are werking their way to the surface. This celebrated extract will speedily purify the blood, equalize the circulation, improve the appetite, impart tone and vigor to the system, and gradually, but surely, extirpate the disease. REVIEW OF THE WILMINGTON MARKET.

FOR THE WEEK ENDING FEBRUARY 3RD, 1859. TURPENTINE-Ruled steady at last Thursday's quotations up to Saturday, when the price of soft went up 10 cents, sales being made at \$2 90 for yellow dip and \$1 70 for hard. There was a fair demand from distillers at the above figures up to Wednesday, when it closed rather dull, the receipts being larger than anticipated; no change in price has, how-

ever, taken place. The arrivals for the week have been heavy, the sales footing up 15,457 bbls., viz:

On Saturday the price went up ½ cent, but on Monday it receded, and is now the same as quoted on Thursday last. BEEF CATTLE AND SHEEP .- The receipts of beeves have been exceedingly light for some time past, and the supply on market has become nearly worked off. There is a brisk demand from butchers, and a good article of stall fatted finds quick sale. One lot of 34 head was brought in on Monday, and sold at 81 cents # th. For Sheer there is also a brisk demand, and none on maket. We quote a prime article gaick at \$2 50 each. BARRELS .- There has been only a meagre demand through- review of the 10th instant, great inactivity has prevailed in

Corron .- Since our last Thursday's review the advices to remain without any alteration. ing with a declining tendency.

CORN MEAL.—The market is at present fairly supplied, and we notice only a limited demand. We continue to quote at 80 a 85 cents per bushel. Eggs-Begin to be brought in quite freely, and are rather slow of sale. We quote at 15 a 16 cents & dozen, as in long at \$45.

slow of sale. We quote at 15 a 16 cents \$\overline{\pi}\$ dozen, as in quantity.

FLOUR.—As noted for some weeks past, the market has ruled inactive for State brands, and the transactions have been confined to small lots from store. On Friday last the price gave way a shade, and 100 bbls, changed hands at \$5 60 for superfine. The demand since our last has been meagre, and one or two other parceis have changed hands at same price as above. Receipts for the week have been small, but we note a moderate stock remaining in dealers' hands. We quote cross at \$5 10, fine \$5 35, superfine \$5 60,

and family \$5 85 @ bbl., though holders generally are asking

GRAIN-In CORN we have no improvement worthy of note to make as regards prices; some parcels have sold in small lots at an advance of 2 cents on previous quotations, but for cargo price we continue to quote at 70 cents. On Tuesday 5,650 bushels were received from Hyde county, 1600 of which came to dealers and have gone into store, and of the balance sales were made of 2,730 bushels (in lots) at 72 cents. The parcels left on market at the close of our last review, (4,200 bushels,) sold at 70 cents per bushel. The market rules firm, and we note a moderate demand from dealers at lowest -Oars-In the absence of receipts for some time past the stock on market has become materially reduced, and is barely sufficient for present wants. We note a brisk demand from dealers, and a few cargoes would find ready sale at 50 cents per bushel.——Peas—Continue to arrive sparingly, and there are scarcely any on market. For Cow there is an active demand from dealers, and parcels would sell quick on arrival. Only one or two small lots received for the week, and sold at 75 cents per bushel.— BICE—For clean there is a moderate demand from the trade, and stock light. We continue to quote at 34 cents per lb. HAY-We have no arrivals of either description to report during the week just ended. The stock on market at present

is quite small, and there is a fair demand from dealers. In the absence of sales our quotations must be looked upon as merely nominal. LIME-No receipts for two or three weeks past, and with a better demand existing dealers have considerably reduced their stock, and we note only a small quantity on market.—
We quote from store at \$1 10 \$\varphi\$ cask, for lump, in lots to

suit purchasers. MOLASSES-The market is better supplied with Cuba, and has ruled quite dull for the week; we have, however, no change to report in prices, and quote sales from wharf at 26 | & Co. cents in lots, and 28 cents # gallon for single hhds. The receipts comprise two cargoes of 550 hhds. and 20 tierces from | E. Hall Cuba. We also note the arrival from New Orleans of 100 bbls. Molasses, and 100 do. Syrup; the former of which is to J. R. Blossom; with corn. selling at 42 a 45 cents, and the latter at 45 a 47 cents # gal-

lon, as in quantity. Potators .- Very few sweet have been brought to market for some time past, and scarcely any now here; in demand, and sell readily at 65 a 70 cents bushel. Irish planting are in fair stock, and there is merely a retail demand. We quote small sales from store at \$2 75 a \$3 \$9 bbl., as in quality. PEA NUTS—Have been brought in quite freely during the past week, and there are but few buyers at present in market. We quote sales at prices ranging from \$1 15 to \$1 30

bushel-the latter price for best quality ;-some lots have sold a shade higher by weight, 28 fbs. to the bushel.

Provisions.—For N. C. cured Bacon, there has been a better demand for new during the past week for retailing purposes, but owing to the meagre receipts we have but ittle to report in the way of sales. We quote one or two lots having sold at 121 cents # lb. for hog round ;—there is a moderate stock of old on market, and it is difficult of sale at quotations in table. For Western there has been scarcely any demand for a week or two past, and the supply on market is fully fair for the season. We quote from store at 8 a So cents for shoulders, and 10% a 10% cents ? th. for sides, as in quantity and quality. ___LARD. The market is poorly supplied with both N. C. and Western make, and we note a moderate demand. We quote small sales of the former at 12 cents ₽ fb. in bbls. ——PORE. —For Northern there has been a limited demand during the past week or two, and there is a moderate stock on market. The sales have been in the small way from store at quotations. See table. For tresh there continues to be a fair enquiry, and only small iots coming in. We quote at 7\(\frac{1}{2}\) to 8\(\frac{1}{2}\) cems \(\frac{1}{2}\)? Ib.

SALT—There is no charge of importance to report in this

article. The arrivals of Liverpool ground have been small for some weeks past, and the supply on market is light; there is, however, searcely any demand. Received for the week only about 400 sacks, of which 150 sold at 75 cents \$\pi\$ sack, cash, and the balance retailed at 80 to 95 cents, as in quantity. Alum is in fair stock, and dull of sale at 16 a 20 cents # bushel. Sugar-We notice the arrival from New Orleans on Monday last of about 220 hhds, which has been stored, and is

selling in lots at 74, 75, 74, 8, 84 a 84 cents \$\mathbb{B}\$ lb. for fair to choice. We refer to our table for store prices of other de-Shingles-Contract continue to be in good enquiry for shipping purposes, and but few have been brought in .-Small sales of prime quality at \$5 WM. For Common there is scarcely any enquiry, and the market rules dull at \$2 25

TIMBER-Has been brought in slowly during the week just ended, and with a brisk demand from millers the market has ruled firm at about previous rates. We refer to our table for prices, at which some 15 a 20 rafts have changed hands.
FREIGHTS—Produce has arrived very freely for some time past, and owing to the scarcity of vessels it is rapidly accumulating on the wharves. The market for coastwise rules firm at previous rates, and there is hardly a vessel in port not taken up. See table for quotations.

Steamer Black River, Dicksey, for Fayetteville, by D. A.

THE CELEBRATED HOLLAND REMEDY FOR DYSPEPSIA, DISEASE OF THE KIDNEYS, LIVER COMPLAINT, WEAKNESS OF ANY KIND FEVER AND AGUE,

And the various affections consequent upon a disordere STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure. This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Borhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now derful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally, instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor NOTICE.—Whoever expects to find this a beverage will

will prove a grateful aromatic cordial, possessed of singular remedial properties. The great popularity of this delightful Aroma has induced many imitations, which the public should guard against pur-

HICKORY GROVE, St. Charles Co., Mo., Nov. 19, 1856. PROF. O. J. WOOD—Dear Sir: Some time last summ we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted, to report it. Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Restorative, we did so with little hope of success, but, to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop or hair soon started out, and we can now say that our boy has as healthy a scale, and as luxuriant a crop of hair as any other child. a scalp, and as luxuriant a crop of hair as any other child.
